AP 10852

IN THE DRAWINGS

Five sheets of substitute drawings are herewith submitted, which represent

a clean version of the original drawings and, in Figures 1 and 3-5, translations of

originally German terms into English.

REMARKS

Prior to a formal examination of the above-identified application,

acceptance of the new claims, substitute drawings, and the enclosed substitute

specification (under 37 CFR 1.125) is respectfully requested. It is believed that the

substitute specification, the substitute drawings, and the new claims will facilitate

processing of the application in accordance with M.P.E.P. 608.01(q). The

substitute specification and the new claims are in compliance with 37 CFR 1.52 (a

and b) and, while making no substantive changes, are submitted to conform this

case to the formal requirements and long-established formal standards of U.S.

Patent Office practice, and to provide improved idiom and better grammatical form.

The enclosed substitute specification is presented herein in both marked-up

and clean versions.

STATEMENT

The undersigned, an agent registered to practice before the Office, hereby

states that the enclosed substitute specification includes the same changes as are

indicated in the marked-up copy of the original specification. Neither the

specification nor the drawings contain any new subject matter.

Respectfully submitted,

₿erlinde M. Nattler
